

ELIZABETH
GARRETT
ANDERSON
PROGRAMME

Are you ready to lead larger functions, departments and more complex projects?

The Elizabeth Garrett Anderson programme is an award winning leadership development programme. It helps mid to senior level leaders in NHS healthcare develop leadership capability, improve confidence and increase resilience, to prepare you for the demands of senior leadership in healthcare today – and into the future.

The programme leads to an NHS Leadership Academy award in Senior Healthcare Leadership and an MSc in Healthcare Leadership.

“The programme was transformational for me; I’d been in lots of leadership roles but without any formal leadership development. The programme was a brilliant opportunity to ‘step up and step out’ of my role to really engage properly in reflective practice.”

Craig de Sousa,
HR Director,
Tavistock and Portman NHS Foundation Trust

“I hope that through the programme I become a better manager for the NHS. I want to learn how to be the best I can to make a positive difference to my team, the providers I work and the patients we serve.”

Mwamba Bennett,
Senior Contracts Manager,
Dudley Clinical Commissioning Group
