

NYE
BEVAN
PROGRAMME

Are you looking to develop your role as a senior leader?

The Nye Bevan programme is a unique, award winning leadership development programme. It helps aspiring senior leaders working in health and care successfully build personal resilience, confidence, influence, capabilities, relationships and networks, to prepare for the challenges and demands of executive director (or equivalent) roles. The programme leads to an NHS Leadership Academy award in Executive Healthcare Leadership.

“The initial part of the programme on inclusivity, diversity and unconscious bias was really powerful. The cohort I was part of became a very ‘safe’ environment from the start.”

Chris Oliver,
Chief Operating Officer,
Mid Cheshire Hospitals NHS Foundation Trust

“One of the real benefits of the Nye Bevan programme is that it helped me look at the way our Board functions and the way I worked within the Board.”

Dr Afsana Safa,
GP,
Marylebone Health Centre
